2024 was a remarkable period of growth, marking it as an extraordinary year for the community especially with community initiatives.

Kegel Heating & Cooling is known for our reputation, reliability and expertise. We take pride in our quality workmanship and uphold the highest standards. Working with Andria is always a pleasure as she upholds the same standards in quality of workmanship, service and expertise that Kegel does. She represents the growing presence of women in trades and her dedication, leadership and expertise really sets her apart in an industry dominated by men.

Her inclusive approach and commitment to excellence creates a welcoming and empowering environment for all involved in her projects. Andria's ability to navigate intricacies of design and construction while breaking barriers is truly inspiring.

Andria's success is not only a testament to her talent but also a beacon of encouragement for women pursuing careers in traditionally male-dominated fields. We have and will always be proud to work alongside Andria and support her in breaking barriers and shaping the future of the industry.

Consistently demonstrating outstanding character, knowledge, and expertise, working with Andria is always a positive and enriching experience. I wholeheartedly recommend Andria for the Renovator of the Year based on her exceptional qualities and contributions to community initiatives.

Regards,

Tim Kegel
